I am proud to lend my support to Flogen Star Outreach, an international non-profit organization whose purpose is to recognize the outstanding achievements of scientists, engineers and technologists working on sustainable development.

It is important to honour these individuals, who devote their careers to the environment, because our future depends on our ability to meet the technological challenges of sustainability. Flogen Star Outreach took up the task of recognizing these men and women in order to enhance the prestige of engineers and scientists in our society.

I want to personally congratulate Flogen Star Outreach for this initiative, and I wish it all the best in its future endeavours.
